A: It isn't necessary to put the serial number in the title. Your serial number is hidden by the automatically generated title. The title is what is displayed. The serial number is just a label, any label, for when you want to make the title a link to the serial number page. Q: 'file name' is not recognized as an internal or external command error in Vs Code I am facing an issue with this error in Vs Code. I have python file 'v1.py'. import operator import requests import json import pandas as pd input = str(input("Enter Folder Path: ")) print(input) workspace = VisualStudioCode.createWorkspace() workspace.addFiles(input) workspace.open() Inside this python file i am using some Json files. import matplotlib.pyplot as plt import os import numpy as np import pandas as pd # retrieve data # i already have a requirement to set a folder path and file name req_folder_path = "Requirement.json" # open file with open(req_folder_path, 'r') as f: req = json.load(f) data = [] for key in req: for t in req[key]: date = t["date"] time = t["time"] tick = t["tick"] tick_name = t["tick_name"] time_length = t["time_length"] shard = t["shard"] start_date =

t["start_date"] end_date = t["end_date"] event = t["event"] event_log = t["event_log"] n = t["n"] count = t["count"] avg = t["avg"] f678ea9f9e
